

SANDEEP KUMAR PALLO

Presales & Solutions Consultant | Digital Transformation, Cloud & Domain Consulting

Phone: +91 9985301496 | Email: sandeep.pallo@outlook.com | LinkedIn: linkedin.com/in/pallosandeep

PROFESSIONAL SUMMARY

Presales and Solutions Consultant with 9 years in enterprise IT and 6 years owning the full bid cycle for Fortune 500 clients. Combines solution architecture, business analysis, and digital transformation consulting across Azure, Microsoft Fabric, and Generative AI with the commercial instinct to engage C-suite buyers, translate business requirements into scalable technology solutions, and close seven-figure deals. Experienced across BFSI, Retail, and Healthcare domains, with working exposure to SAP S/4HANA (Retail) and ServiceNow-based solution stacks. Known for building presales capability where none existed, acting as a trusted advisor to executive buyers, and aligning delivery teams around outcome-led win strategies.

PROFESSIONAL EXPERIENCE

Manager, Presales

Nov 2025 – Jun 2026

Damco Solutions | Hyderabad, India

- Established a \$2M+ cloud pipeline in the first quarter — defining bid strategy, solution construct, and executive engagement plans targeting new business acquisition across 8+ concurrent Healthcare and BFSI opportunities.
- Converted 2 of 3 evaluated US accounts into active engagements within 90 days — securing technical wins through structured RFP responses, proposal defence discussions, and buyer-specific proposals with clear win themes.
- Ran discovery workshops and CXO presentations across 4+ global accounts — translating client business problems into compelling value propositions and Azure data-platform narratives that unseated competing vendors.
- Reduced proposal turnaround by ~30% through AI-assisted bid drafting (Copilot, Claude) — eliminating late-stage rework and raising bid quality across all active accounts.
- Built working knowledge of SAP S/4HANA (Retail) landscapes through client solutioning, strengthening cross-platform credibility in Retail-vertical proposals.

Associate Manager, Presales

Jul 2022 – Nov 2025

MAQ Software | Microsoft Solutions Partner | Hyderabad, India

- Closed \$10M+ in net-new revenue across 20+ enterprise engagements over 3 years — driving new business acquisition through multi-year contracts for US Retail and FMCG clients, including an \$8M engagement.
- Founded MAQ Software's presales practice — introduced MEDDIC qualification gates, bid governance cadences, and win-strategy reviews that moved the team RFP win rate from 25% to 40% in 18 months.
- Grew a 7-member presales team to full independence — 5 of 7 members owned \$500K+ bids solo within their first 18 months.
- Drove a 60% C-suite conversion rate (6 of 10 prospects) through executive workshops, proof-of-concept demonstrations, and solution architecture sessions that reframed Azure Synapse, Microsoft Fabric, Power BI, Databricks, and Snowflake around board-level priorities.
- Secured all 11 Microsoft Specializations — directed evidence gathering, documentation, and Partner Center submissions across Azure, Business Applications, and Security; credentials strengthened the firm's standing on seven-figure RFPs.
- Launched a 6-part Azure and Fabric executive webinar series — creating POVs, industry benchmarking collateral, and thought-leadership content that drew 50+ VP and C-suite attendees per session, generating 10+ sales-qualified leads and seeding 3 net-new enterprise relationships.
- Applied working knowledge of SAP S/4HANA (Retail) landscapes gained through Retail and FMCG client engagements to strengthen solution narratives against incumbent ERP-adjacent platforms.

Senior Presales Consultant

Mar 2022 – Jul 2022

Quantiphi Analytics Solutions | Google Cloud Premier Partner | Bangalore, India

- Orchestrated 6+ GCP co-sell motions with the Google Cloud partner team — aligning GTM for AI/ML platform opportunities in NA Retail and reinforcing Premier Partner standing.
- Developed partner-alliance GTM collateral across 3 cloud platforms — translating GCP capabilities into retail-specific business cases that gave field teams a credible edge over AWS and Azure incumbents.
- Moved 2 of 4 evaluated accounts to final-round selection within a 4-month tenure — delivering live AI/ML demos that shortened procurement cycles and outperformed competing solutions.

Senior Presales Consultant

Aug 2020 – Mar 2022

Cognizant Technology Solutions | Pune, India

- Led the digital-experience AMS workstream (\$10M scope) inside a \$250M managed-services bid — architecting pricing models, solution narrative, SOW, effort estimates, and compliance responses for a global multi-year engagement built on a ServiceNow-based service management stack.
- Achieved 35% RFP win rate across 10 strategic US Healthcare and Life Sciences accounts — orchestrating cross-functional teams of SMEs and solution architects to deliver technically precise, commercially differentiated RFP and RFI responses across Pharma, Payer, and Provider clients.
- Improved procurement-committee shortlisting rates by 20% by sharpening delivery models, effort estimates, and scope definitions on every submission.
- Maintained 100% on-time submission record across 10+ simultaneous RFPs — zero missed deadlines.

Software Analyst

Mar 2016 – Apr 2019

Accenture Solutions Pvt. Ltd. | Mumbai, India

- Supported application development and maintenance across 3 insurance accounts on a ServiceNow-based AMS platform — tracked 20+ change requests per quarter, building policy administration and claims domain knowledge that now underpins BFSI presales conversations.
